*Australian exclusive from Gordon Duff, editor Veterans Today*

Alleged Christchurch shooter, Brenton Tarrant has been on a watch list since 2012 as an Israeli trained assassin representing a threat to President Assad.

Australian media will never publish these sordid details which prove Tarrant is actually an operative of intelligence services.

We do know this, we are dealing with a professional assassin, experienced, a sociopath, and a “fake person” with no social media, no neighbors, no co-workers, no school friends, no records of getting semi-auto weapons, a car out of thin air, a second shooter who dissolved and some very serious continuity problems in his video with some victims “pre-killed” by the Easter Bunny?

We have a single young man, 28 years old, a “physical trainer” with tons of inherited money, who travels the world, photographs everything, is loved by everyone, then mysteriously goes on a personal murder rampage.

**What we really have is a trained assassin, 42 years old, from a Jewish family, who trained against Palestinians and served in Southern Syria and in Idlib with al Qaeda, transiting in and out of Turkey.**

We also have an operation where solid intelligence sources say 4 women “tourists” aided in “handling and logistics” and local police counter-terrorism forces supplied a second shooter.

During his world travels as a “young man with wanderlust,” we have no social media. We have no school photographs, no work history, no education, no job history, another “empty person” like our Sandy Hook “shooter” and so many others.

Several photos of a young Tarrant were produced by his grandmother for the television interview.

Members of Tarrant’s family were interviewed by a television station and the interviews broadcast by Channel 9 two days after the shooting.

*In Tarrant's (left) years at Grafton High School his interest was in computer games rather than girls, his grandmother said. "He spent most of his time playing games on computers in and out of computers and playing games," she said.*

*"I don't think girlfriends were on the agenda ... getting married was too hard." She said Mr Tarrant's father's death in 2010 from cancer took its toll, and he headed to Europe at a time when Islamic extremists attacks were on the rise.*

*"It's only since he travelled overseas I think that this boy has changed completely to the boy we knew." Twelve months ago he returned to Grafton for his sister's birthday and there were no red flags, Mrs Fitzgerald said. Pic Channel 9*

**This time Tarrant made the mistake of crossing into areas in Christchurch watched by Russian and Syrian intelligence, from where VT receives daily private briefings. They know him, after all, he was supposed to murder President Assad. Oh that? CNN failed to mention that?**

Of course, the incident itself, police that never show up, only one shooter, one guaranteed the fame he sought and failed to get through the murder of President Assad on behalf of his Israeli handlers (Russian military intelligence sources). He will now spend his life in a prison apartment.

#### **Tarrant a member of a Canberra satanic cult**

He will be watching InfoWars, eating the finest food, getting "high fives" from guards and police, and being moved in and out by night, like Julian Assange and Anders Breivik, as reward for his role in history, played out through his membership in a Canberra Satanic cult, the Masonic Forum, where he holds a leadership position.

Then again, we did hear of three arrests. This is going to be an interesting story.

Then again, the three people arrested, (which police claimed they let go because they had no connection to the massacre) are, by our accounts, sharing cells with those that aided Anders

Brevik (Norwegian terrorist who shot 69 young labor members in 2011) along with Berwick/Bronstein.

And so we have, as in so many cases, such as Port Arthur in Tasmania in 1996, fake mass shooters, and we have two varieties, shootings with no dead and shooters, who are invariably police or security agents, who do the shootings and find hapless and insane patsies to either kill or lock up for life, such as Martin Bryant.

Shooters are always multiple, as in reports from Sandy Hook, where arrests were made but those arrested disappeared. Let's get on with this one and then circle back.

28 year old Brenton Tarrant, who is photographed flashing Trump's infamous "666 Sign of the Beast," the identifier of top level Freemasons initiated into Satanic ritual, is being recreated more and more as a fake person. From CNN today:

*"Details have continued to emerge about the extensive travels of the suspected gunman, Brenton Tarrant, before the Christchurch attack.*

*CNN has confirmed that Tarrant visited **Egypt** and **Greece** in March of 2016, and Turkish state broadcaster TRT reports that he visited **Turkey** the same month, before returning in September and staying in the country for around seven weeks.*

*Local news agencies have also reported that Tarrant visited the Balkan nations of **Serbia and Montenegro, Bosnia and Herzegovina and Croatia** in late 2016 and early 2017.*

*In the hate-filled "manifesto" sent to New Zealand PM Jacinda Ardern and others shortly before the mosque attacks, Tarrant wrote that his world view had changed dramatically while traveling in Europe in 2017.*

*Tarrant visited **Bulgaria and Romania** in late 2018, Bulgarian Prosecutor General Sotir Tsatsarov told journalists on Friday, according to state news agency BTA. Tsatsarov added that the suspect had a very good knowledge of the region's history.*

*CNN has confirmed that Tarrant also visited **Pakistan** in October 2018."*

Turkey was added to the visit group after VT announced his 3 visits to Turkey. What is not told is that his Turkish visits coincided with his 6 months in Israel starting in 2018 and involved him exfiltrating from Idlib Province where he was being "blooded" by Israeli backed al Qaeda/al Nusra groups.

*The video, resembling a grab from a video game, released by Tarrant has terrified the New Zealand government which says it will prosecute anyone who publishes it.*

Prior to that, in 2017, he entered Israel and from there, he entered Syria where he, according to Russian Military Intelligence, visited Deraa and then a refugee camp outside al Tanf, where Israel and the US have stationed hundreds of ISIS fighters under cover of refugees.

This is confirmed by a General in Russia's military. Russia is seriously considering confronting the US military in al Tanf.

Mass graves at US run refugee camp were visited by Tarrant (Syrian Sources)

Coordinating efforts there is the shadowy FDD, the [Foundation for Defense of Democracies](#), whose staff is almost entirely made up of Israeli trained intelligence officers, according to our sources in Syria and Russia.

Tarrant was in the Rukban camp, and from there traveled to Deraa, where he met with ISIS cells, and then was escorted back to Israel and from there to Turkey where he entered Idlib and met with al Nusra. He transited in and out of ISIS/al Nusra occupied Syria to Turkey 3 times before traveling to Belgrade.

*Those who are familiar with occultist hand signals look at Tarrant's right fingers.*  
**Background, From Syrian Intelligence**

Tarrant has been on a watch list since 2012 as an Israeli trained assassin representing a threat to President Assad.

Their records, submitted to VT in Arabic on 3/16/2016, say that Tarrant's family was in Palestine in 1948. They have no record of family origin, and technically, this makes his family, Jewish by religion, "holocaust survivors" even if they weren't in Europe during the war.

This is the current definition, any Jew living during this period, even outside Europe, may under some circumstances, claim compensation as a “holocaust survivor.” Tens of thousands to this day, who were never in Europe, receive compensation from the Germany government.

There are no records of Tarrant’s “inheritance” that allowed his travel to Israel, Syria, Turkey and more and more nations now being added to the group.

The video he released clearly demonstrates that he was familiar with handling weapons and killing civilians. There is no question. We warn anyone about this video, it is reprehensible but also clearly demonstrates someone fully radicalized, we believe, from taking “pot shots” at Palestinians including children, from Israel’s “Trump-like” wall and its hundreds of sniper towers.

Listen to him chat about “combat” as he pumps round after round into women and children, spraying blood into the air. This isn’t his first rodeo.

Then the second video, we believe, shows his “helper,” which we believe to be a police handler:

As with Sandy Hook, we have issues about the weapons used. We now see a single AR15 with bizarre “California” modifications, no flash suppressor and a rear stock to remove the hand grip. New Zealand has no such laws.

Remember Tarrant is not from New Zealand but Australia. How did he get to Australia? How did he get 5 military weapons, some of them extremely illegal? How were they carried on the plane? Where did they come from? Where are they now? Why can’t we see them?

Tarrant’s original shooting involved an Eotech sight, manufactured in Ann Arbor, Michigan. This unit has a serial number. What is it? It can be traced. The second rifle used in the video had a Swedish manufacture Aimpoint sight, also very expensive and serial numbered.

In the US, the “Eotech Tarrant used is a “law enforcement only” version. Also, as the weapon photographed was an early version of a specially modified AR15, much like the Clinton “ban” era weapons in the US. None or few of these fake modified AR 15s from rural areas of Australia exist. The weapon was rarely used there as the .223/5.56mm cartridge was inadequate for long range varmint work and few were issued to Australian military and those in 20 inch barrel with Vietnam era had highly recognizable M 16 E1 characteristics.

How did this banned “Aussie” weapon get to Australia? Where did the other weapons, more AR’s, and pistols, come from?

The shotgun was legally purchased from a Christchurch gun dealer

Some of the background came from sources in the Netherlands counter-terrorism forces as well who began running background on our shooter as he began contacting White Supremacist groups there and across Central Europe (never called Eastern Europe, that’s Russia).

The trail he followed, other than North Korea and elsewhere, was the “Steve Bannon/Anders Berstein” circuit where the Maidan snipers were trained as well. The Georgian snipers used at Maidan were private military contractors from groups VT knows very well, groups contracted to Bechtel Corporation and British Petroleum, according to VT bureau chief Jeffrey Silverman in Tbilisi, Georgia.

So, where are we? We have a second shooter and guns there, strange video with “pre-killed” victims. We have silenced witnesses and banned videos.

Some family members now are under police protection. We have money from heaven, training in Israel, time spent in Syria and in and out of Turkey, we have a trained assassin pretending to be a world tourist with no photos, no video, no social media, no friends, no school chums, no neighbors and a British/Scottish background achieved when his Jewish family immigrated to the UK from Palestine/Israel in 1948.

We have a bit too much lying. And so it goes.
